# Aquabot Water Bottle

---

A modern water bottle with many uses. It comes in two sizes: AB321L and AB321S

The Aquabot Water Bottle is a high pressure drinking water bottle with multiple spray patterns including shower, stream and mist. It allows you to cool off, clean off, hydrate and have fun with just your water bottle.

## Key Performance Specifications

There are two different models of Aquabot Water Bottle.

- AB321L Large
  - 64 oz
  - Airtight Flip Lid
- AB321S Small
  - 32 oz
  - Airtight Flip Lid

## Key Features

These specifications apply to both the large and small models.

- BPA Free
- Stealth and Pulse modes
- Variable flow trigger
- 2 attachment points
- Includes lanyard

## Aquabot Bottle Assembly Procedures

---

The Aquabot Water Bottle can be assembled and ready for use very quickly.

There are several steps you must take to prepare your water bottle before using it.

1. Remove the Aquabot Water Bottle from its packaging and inspect for any damage.
2. If the product is damaged, return it to the place of purchase.
3. Separate the lid from the body of the water bottle.
4. Wash all the parts in warm soapy water; rinse with clear water; manually dry all parts.

Once your Aquabot Water Bottle is clean and dry it is ready for use. Fill to the fill line demarcated on the body, attach the lid, and enjoy.

# Aquabot Water Bottle Specifications

---

All specifications apply to all models unless noted otherwise.
